System

Brand Identity

The visual identity derived from the logo — a growing tree formed inside the brand letterform, representing knowledge that is planted, nurtured and grown.

Brand Personality

The design language communicates a platform that feels rigorous enough to trust with an exam, and simple enough to use every day.

1 Trust & Reliability

2 Education & Growth

3 Knowledge & Clarity

4 Simplicity

5 Accessibility

6 Modern Technology

Visual feel: Clean · Educational · Modern · Trustworthy · Green · Minimal. Deliberately avoids childish, cartoonish school-style graphics in favour of a grown-up, professional edtech tone.

Logo Construction

The tree symbolises growth of knowledge; the letterform anchors brand recognition. The dark green trunk carries authority, while light green leaves add energy and optimism.

Logo Usage — Clear Space & Minimum Size

Clear Space

Keep padding equal to the height of the leaf canopy on all sides — never crowd the mark.

Minimum Size

Do not scale the icon below 24px in digital use, or 10mm in print.

On Dark Backgrounds

Use the reversed white lock-up on dark green or photographic backgrounds.

Color Palette

A complete website color system built around the two greens in the logo — used deliberately, never overwhelming the interface.

Primary Colors

Primary Dark Green CORE

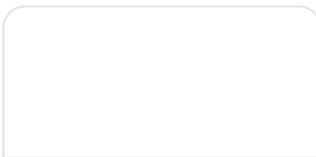

HEX #016737 · RGB 1, 103, 55
Usage: Navigation, headings, primary buttons, footer

Primary Light Green CORE

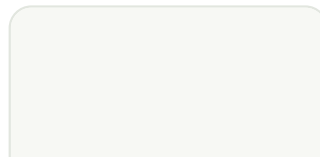

HEX #8BC43F · RGB 139, 196, 63
Usage: Accents, CTAs, highlights, progress states

Supporting Colors

Alerts, pending states

Error Red

#D6524B
Errors, failed payments

Do & Don't

✓ Do

Use dark green for structure (nav, headings, footers) and light green sparingly for action & emphasis, on a white/off-white canvas.

✗ Don't

Don't fill large background areas with dark green, mix in unrelated hues, or use light green for body text — it fails contrast.

Color Usage Ratio

Green is the identity, not the wallpaper. Applying it in a strict ratio keeps the interface calm and legible at scale.

60% neutral canvas keeps content readable · 25% dark green carries structure and hierarchy · 10% light green draws the eye to action · 5% supporting colors for status & feedback only.

Element	Recommended Color
Header / Navigation	Dark Green on White
Primary Buttons	Dark Green fill, White text
Secondary / CTA accents	Light Green
Cards	White on Off-white background
Links	Dark Green, underline on hover
Badges	Light Green (free) / Dark Green tint (premium)
Backgrounds	White / Off-white only
Alerts	Success / Warning / Error tints

Alerts

Page-Level Composition

A typical section: white/off-white canvas, dark green header, light green used once as a single accent block – never repeated edge to edge.

Typography System

A clean geometric sans-serif keeps long study content legible on desktop and mobile alike.

Font Family

Poppins

Primary typeface — headings & UI. Geometric, modern, highly legible at all sizes.

Inter (alternative)

Recommended for long-form body copy where extra neutrality is preferred.

Use Semibold/Bold for headings, Regular for body, Medium for buttons & labels.

Heading Hierarchy

Style	Size	Weight	Line Height
H1	40–48px	Bold	1.2
H2	32–36px	Semibold / Bold	1.25
H3	24–28px	Semibold	1.3
H4	20–22px	Semibold	1.35
Body Large	18px	Regular	1.6
Body Regular	16px	Regular	1.6
Body Small	14px	Regular	1.5
Caption	12px	Medium	1.4

CAPTION · UPDATED TODAY

UI Language & Buttons

Clean cards, soft corners, subtle shadows, and generous whitespace — nothing fights for attention.

Foundations

Token	Value
Radius — Small	6px
Radius — Medium	10px
Radius — Large	16px
Radius — Cards	12–16px
Shadow — Card	0 4px 16px rgba(1,103,55,0.06)
Border	1px, Light Gray

Avoid

- ✗ Excessive gradients
 ✗ Too many colors
 ✗ Excessive animation
 ✗ Overly decorative UI

✗ Heavy shadows
 ✗ Cluttered layouts
 ✗ Tiny text

Variant	Default	Hover	Active	Focus	Disabled
Primary	Dark Green fill	+8% darker	+16% darker	2px light-green ring	40% opacity
Secondary	Light Green fill	+8% darker	+16% darker	2px dark-green ring	40% opacity
Outline	Dark Green border	10% green fill	18% green fill	2px ring	Gray border
Ghost	Transparent	Off-white fill	Light-gray fill	2px ring	Gray text

Cards, Shadows & Spacing in Practice

Default
 Resting state — 1px light-gray border, 6% opacity shadow, 12–16px radius.

Hover / Elevated
 Shadow deepens slightly and border tints light green — no scale or bounce animation.

Selected / Active
 1.5–2px dark-green border replaces the shadow to indicate a chosen state.

Iconography

A single-weight, rounded stroke icon set that pairs quietly with the brand's organic logo mark.

Style: 1.8px stroke, rounded caps & joins, 24×24 grid, no fill — rendered in Dark Green across the interface, White when placed on dark surfaces.

Icon Usage Rules

Consistent Weight

Never mix filled and outline styles in the same view — stroke icons only, everywhere.

Sized to Text

Pair icons with adjacent label text at a matching optical size — 16–20px inline, 24px in cards.

Color Meaning

Dark Green for neutral actions, Light Green for positive/free states, Error Red only for destructive actions.
